

Oral History Committee Charge

The Emeriti Association Oral History Committee is charged with developing a strategy for ensuring that the voices and experiences of distinguished emeriti are captured and recorded for posterity. In close cooperation with the officers and members of the board, the committee solicits names of retired faculty to interview, develops procedures for training interviewers, designs format for the interviews, creates and monitors the budget, partners with the Library and other campus entities to ensure archiving and access to the interviews, including search metadata and storage, and works with other Emeriti Association committees to publicize the UCSB Emeriti Oral History Archive.
